2nd EPNOE List of Posters

(Poster Number, Title, Presenting Author)

- P - 1 **Tailoring Cellulose Reactivity: Protection-Driven Regioselective Modification at C2 and C3**
Luisa Ferreira
- P - 2 **NMR Insights into Marine Microalgae Polysaccharides for Biomedicine**
Elisabetta Galluppo
- P - 3 **Multi-Scale NMR in Sustainable Polymers Development**
Marta Corvo
- P - 4 **Modulating physicochemical and biological properties of polysaccharide bio-based materials by microbial melanin incorporation**
Odile Francesca Restaino
- P - 5 **Exopolysaccharides synthesized by beneficial Lactobacillus strains autochthonous to brine ecosystems**
Jasna Novak
- P - 6 **Bacterial glycoconjugates as targets for new therapeutics and diagnostics**
Raquel Vaya
- P - 7 **Hydrodynamic characterization via SEC-TDA: a reliable and powerful approach for the characterization of natural, biotechnological, and semi-synthetic polysaccharides**
Celeste Di Meo
- P - 8 **Molecular Recognition of Bacterial Glycoconjugates by Host Immune System**
Alejandro Garcia-Chinchilla
- P - 9 **CHEMICAL FUNCTIONALIZATION OF POLYSACCHARIDES WITH SMALL MOLECULES: A 1H-NMR SPECTRUM IS NOT ALWAYS ENOUGH FOR CONFIRMING THE DERIVATIZATION**
Fabiana Esposito
